-Hon. Mr. Fentie

NOTICE PAPER

NOTICES OF MOTION

MOTIONS OTHER THAN GOVERNMENT MOTIONS

1. Mr. Nordick (Motion #51)

THAT this House urges the Government of Yukon to make land available to Yukoners for community, residential, recreational, agricultural, commercial and industrial purposes while respecting the interests of existing land holders as one of the highest Yukon Government priorities by streamlining the land application process and ensuring that appropriate policies and administrative structures are put in place to manage Crown land in the territory.

2. Mr. Fairclough (Motion #52)

THAT this House urges the Government of Yukon to table the draft report of the Education Reform Project and any associated position papers relating to it so that:

- (1) Members of this House and all interested parties may have ample time to review the draft recommendations of the report, and
- (2) the time required for implementing some or all of the recommendations of the final report will be shortened.

3. Mr. Inverarity (Motion #53)

THAT it is the opinion of this House that:

- (1) the proposed climate change research centre promised by this Government has nothing to do with combating the looming problem of global warming,
- (2) the proposed centre is a research and development centre with the following objectives:
  - (a) to create a higher degree of economic self-sufficiency in Canada's North, and
  - (b) to increase private-sector growth by building capacity through investment in research, and
- (3) although the proposed centre may bring economic benefits to Canada and Yukon, it is wrong to portray it as anything other than a research vehicle for industry in the area of cold weather technology.

4. Mr. Cardiff (Motion #54)

THAT this House urges the Yukon Government to begin immediately to honour the commitment in the Yukon Party election platform to review and amend the *Access to Information and Protection of Privacy Act*, so that the process can benefit from the informed opinion of the current Information and Privacy Commissioner regarding the strengths and weaknesses of the Act and its administration before the expiry of his term; and

THAT the review process include an invitation to all persons who have requested access to records under the Act since its inception to provided information in confidence regarding their experience with the Act and its administration.
